My Narcisstic Family wanted to throw away all of these books listed below, they thought they were ghetto, some of them are, However I thing Douglas Valentine's Books on The CIA AS Organized Crime and Phoenix Program at least seemed educational, what is your view on this, I want an unbiased view on these books, yeah some of them may be crap, but others may or may not contain whistleblowing material, I can't believe life is this shitty that family that is supposed to care about you, would throw you out into homelessness, close your bank account, cut up your bank files, birth certificate, other documents, your important documents that you need for finance, then disown you because of your politics and that you did not get the COVID Vaccine, then they would throw away all your books, physical books worth at least five grand in total, so they are pissing away five grand, throwing books in the landfill, this is why I finally gave up on humanity, you idiots never read books and only watch Television, this pisses a lot of us off, every generation after the boomers never reads books, only watches TV, and will throw away thousands of dollars in rare, hard to find books worth thousands of dollars, this society is a total joke, not to mention they think in a black an white JOCK mentally, also you other TIs in the community are acting exactly like perps saying I hacked

your email in Kali Linux, anyways I have Two Links Below of all my books. ;
